Polish your skills to prepare for the future

- + Applied math
- + Problem solving
- + Data analysis
- + Algorithm structure
- + Probability and statistics
- + Programming languages such as Python, C++, R, or Java

Get started now!

- + Enter AI competitions like battlebots, kaggles, or hackathons
- + Create a chatbot
- + Learn GitHub and Kaggle
- + Share code examples
- + Read AI blogs

Then chart your course to a great career!

- + Dig into online training opportunities
- + Seek out an internship
- + Invest in an Associate or Bachelor degree
